RACKUP

A new philosophy of storage

Stability and safety Versatile Design

RACKUP, storage rack for power boats up to 8 meters long, 5 tons and 3 meters high.

3 majors advantages:

- The central disengagement without distinction allows, a storage In Bord, Hors Bord.
- Easier by handling the storage of boats staggered: quick acces without barriers through the absence of ties.
- Unparalleled stability trough a spacing between the Timbers of 1,40 meters.

RACKUP a real effective tool in the exploitation, versatile for any type of boat, designed to enhance the image of installation.

RACK UP

A new philosophy of storage, combination of design and efficient.

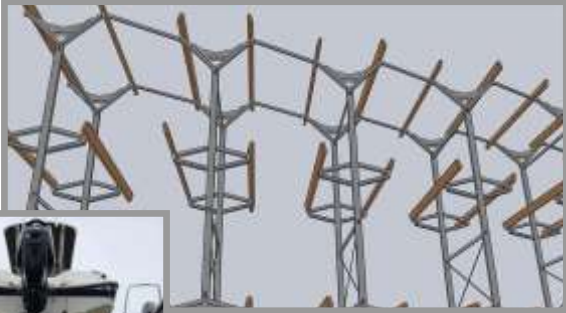

By enhancing the image of his company or his business, the professional ensures a safe and effective in its new handling and storage.

**YOU WISH FACILITY
EFFICIENT, DESIGN, SAFE,
FOR YOUR CUSTOMERS AS
WELL AS FOR YOUR OPERATORS
